Chicago Police Superintendent

Re: Chicago Police Officers
Acting as Private Security Contractors

Superintendent McCarthy,

I would like to bring to your attention something that is going on within the Chicago Police Department. There are several Chicago Police Officers that are acting as Private Security Contractors without the proper Licensure issued thru the Illinois Department of Financial and Professional Regulations. Please refer to the following act:

(225 ILCS 447/Art. 25 heading)

ARTICLE 25. PRIVATE SECURITY CONTRACTORS.

(Article scheduled to be repealed on January 1, 2014)

I bring this to your attention for the following reason, this is the lively hood of many individuals, As a small business owner of a Private Security Company, I am finding it very difficult to obtain contracts due to the fact of many of your officers are **EXPLOITING** their **POLICE BADGE** and **POSITIONS** with the Chicago Police Department to work as a Security Contractor without the proper Licensure. I know this first hand as I am currently dealing with this situation in the 012th District, and with one of their officers as well as a Sergeant who informed myself directly after I had informed him of the law regarding Private Security Contractors, That **"IT'S OK WHEN WE DO IT, PEOPLE USUALLY TURN THE OTHER WAY WHEN IT IS DONE"**. What does his statement tell me, That Police Officers are above the Law, I'm sorry but they are not.

I hope that you can help rectify this situation and help us educate your officers on the rules and regulations regarding private security in Illinois. I have the Female Police Officer's license plate number if you are interested in knowing it, also when I asked her to show me her credentials she refused, So how do I know she is really a police officer? The only reason, I do know she is an Officer is because the Sergeant confirmed this when I asked him.

I look forward to your response to this situation.
